EDUCATION

University of California - Davis

Bachelor of Arts in Design

Davis, CA

Sep. 2025 – Present

Sierra College

Associate of Applied Arts & Design (In Progress)

Rocklin, CA

Aug. 2022 – May 2025

EXPERIENCE

Design Interactive

Product Designer

Apr. 2026 – Jun. 2026

Davis, CA

- Designing a tool for small business owners in a **6-week sprint** alongside 3 designers, a project manager, and an industry mentor
- Executing **end-to-end design process** — research, ideation, wireframing, **usability testing**, and high-fidelity prototyping of final deliverables
- Presenting final work and design rationale to a panel of **industry judges** for evaluation, **critique**, and feedback to inform future iterations

All Things Design GUM Program

Product Designer

Jan. 2026 – Mar. 2026

Davis, CA

- Client project** — redesigned the QAC Gallery website for an Oakland-based LGBTQ+ arts organization with a team of 4 designers and 1 PM
- Conducted **competitive analysis** across 5 organizations and client interviews to shape design strategy and **information architecture**
- Delivered **lo-fi, mid-fi, and high-fidelity prototypes** across sign-in, events, and workshop booking flows

#include Cohort Program

Product Designer

Jan. 2026 – Jun. 2026

Davis, CA

- Client project** — designing a website for the Juvenile Caduceus Clinic (JCC) from initial research through a high-fidelity prototype
- Conducted **UX research, user flows**, and design decisions, iterating based on ongoing team and client feedback

PROJECTS

QAC Gallery Website Redesign | *Figma, UX Research, Prototyping, Wix*

Jan. – Mar. 2026

- Client project** — redesigned website for an Oakland-based LGBTQ+ arts organization to improve **accessibility**, event discovery, and visual identity
- Conducted **competitive analysis** of 5 organizations and client interviews; applied findings to restructure **IA** and define updated **branding** direction
- Iterated on sign-in, events, and workshop booking flows based on user feedback, improving **visual hierarchy** and reducing cognitive load

VolunteerMe | *Figma, UX Research, Prototyping, HTML/CSS, Flask*

May 2026

- Designed a **volunteer opportunity discovery platform** at **HackDavis 2026** within a 24-hour timeframe
- Ran **user research** via surveys to validate problem space and inform **personalized onboarding** and feed design
- Collaborated cross-functionally with a developer to ship **Figma designs** to HTML/CSS under tight constraints

SKILLS

Design: Product Design, UX Research, UI Design, Wireframing, Prototyping, User Flows, Interaction Design, Visual Design, Design Systems, Graphic Design

Tools: Figma, FigJam, Figma Make, Framer, Adobe Photoshop, Adobe Illustrator, Adobe InDesign, Adobe Premiere Pro, Canva

AI Tools: Claude (research & ideation)

Other: HTML/CSS
